The economical and ecological choice

- Double the lifetime of a traditional bulb

PHILIPS

Highlights

Cool beam

The lower temperature in front of the Philips bulb, as compared to a normal reflector light bulb, minimises the effect of heat on sensitive objects.

Decorative accent lighting

This Philips spot is designed to provide a focused, bright beam. Use it to highlight your special objects or combine multiple spots for general home lighting.

Best dimmability

This lamp can be used in combination with all dimmers and will not only turn down the light to 0%, but also creates the cosy atmosphere you're used to from your incandescent.

Double the lifetime

This lamp lasts twice as long as a standard bulb. So it replaces two lamps, for lower cost and less hassle. The lifetime is based on the average usage of 2.7 hrs per day or 1000 hrs a year.
