# INFRARED INCANDESCENT REFLECTOR BULB

05249

INFRARED 240 V R125 E27 5000 0%-100% 0.137 ≤ 500°C

- The infrared incandescent reflector lamps are designed to work in the toughest environment such as farm, bathroom or kitchen and their nearest surrounding.
- They have a reinforced construction thanks to hard glass use.
- Their compact form and universal cap base allow them to be used with any suitable equipment.
- A very good method of generating warmth is by using heat lamps.
- The infrared lamps provide direct, draught-free warmth to the animals, but also food.
- These benefits have made farmers and cooks around the world choose infrared lamps, because they are the sturdiest, most efficient lamps available for these applications
