

LED TUBE NANO-PLASTIC

WOJ+22954

LED TUBE NANO-PLASTIC 24 W with G13 socket. The lamp shade has been made of plastic, making it more resistant to breakage, for example during transportation. It is characterised by a high light efficacy 104 lm/W. It shines with a cold light colour (6000K), which is suitable for rooms where we need to be most focused and concentrated, such as technical workstations. Wide beam angle 270° ensures even illumination of the room.
